

St. Elizabeth Healthcare Dearborn County Hospital Expansion Lawrenceburg, IN

Bayer Becker provided design services for the Dearborn County Hospital Expansion. The phased expansion included the construction of a 256 car parking garage followed by a three floor patient tower. Dearborn County Hospital was operational during the expansion so safety was paramount. Bayer Becker's site design for the property was also a key factor because the site featured tight constraints including the existing, functioning hospital on one side and a busy intersection on a state highway.

Bayer Becker's experience with both Dearborn County and the City of Greendale's regulations combined with our experience on similar projects ensured a smooth project from design to construction. This combination allowed the project to be completed 10 weeks ahead of schedule and under budget.

Project Stats	
Client:	Dearborn County Hospital
Location:	Lawrenceburg, IN
Year:	2006
Market:	Healthcare
Project Size:	90000.00 sq ft - Building Pad

Services Provided:
