

Butler County Metropark River Center

Middletown, OH

Project Stats	
Client:	MetroParks of Butler County
Location:	Middletown, OH
Year:	2017
Market:	Parks & Recreation
Project Size:	3.00 Acres

Rivercenter is a full service bicycle center located along the Great Miami River Recreational Trail. Strategically located to take advantage of views to the Great Miami River, the facility includes administrative offices, restrooms, educational facilities, parking lot, and rain gardens. The project serves as a trailhead for access to the regional trail and can support events that take place at the AK Steel Performance Pavilion located directly north. Bayer Becker provided surveying, civil engineering, and landscape architecture services on this project. Our firm teamed with SMP Design + Construction and Schaefer on the Design-Build approach.
