

Construction Site Technician - Civil Design

Experience Level: 2-7years | Location: Mason, OH

Position Responsibilities

- Supporting members of our growing team
- Serve as a construction observer to verify compliance with approved plans and specifications and assist our clients on a variety of infrastructure projects
- Contract administration
- Assist team with project planning and scheduling
- Review of civil plans and specifications in preparation for field site visits and observations
- Prepare documentation of the day-to-day construction site field activities as contracted by our clients
- Attend team meetings and/or client consultation meetings to understand client needs and assist design team to incorporate them into design
- Storm Water Pollution Prevention Plan (SWPPP), verifying compliance on site

Position Requirements

- Associate degree in civil engineering technology, construction management or equivalent experience in related field

Position Qualifications

- Proficient working knowledge of Autodesk AEC Collection software (AutoCAD Civil 3D) and Microsoft Office, including Teams, Word, Excel, and Outlook
- 2+ years of experience in civil engineering design and consulting, primarily related to the public infrastructure market projects (municipal water utilities such as stormwater, wastewater, water supply), and site utility improvements
- Own means of transportation and ability to travel as needed for team meetings, client consultations, site observations/visits, etc
- Must have good communication skills and be able to work independently
- Must be able to work in a variety of weather conditions and be able to walk and climb over rough terrain associated with construction sites while complying with site safety requirements
- Extreme attention to detail
